

Trousers TENSIONPRO 4-Way Stretch Graphene with detachable pockets (Black/ Hi-Vis yellow)

BoSafety TENSION PRO high-visibility pants - an enhanced version of the best-selling TENSION pants! Comfortable, movement-friendly pants with detachable extra pockets! Lightweight, high-quality, and comfortable work pants that provide plenty of freedom and comfort.

Fabrics: These pants are exceptional because they are made using highly elastic **4-Way Stretch** fabric, meaning they are extremely flexible and do not restrict movement. The **Dobby weave fabric** ensures excellent air circulation and breathability (Water vapor resistance test Ret = 2.8). Areas that require flexibility and abrasion resistance are reinforced with **4-Way Stretch Graphene** fabric. The knees are reinforced with **CORDURA®** fabric for exceptional durability and resistance to tears and abrasion.

Details:

- Elastic band at the back of the waistband, allowing the waist to extend by up to 6 cm.
- Front closure with 2 detachable press studs and a zipper, with reinforced **CORDURA®** pockets. The right pocket is adapted for tools, and the left pocket is zippered.
- Deep inset pockets on both sides at the hips. A tool pocket on the right calf, and a zippered pocket on the left calf.
- Knees are reinforced with **CORDURA®** fabric, with special pockets for knee pads.
- Adjustable pant hems (can be extended by 4 cm by removing the seam).
- Two deep back pockets with zippers, featuring pull tabs on the zipper pulls.
- Reflective details on the sides of the knees.
- The pants meet **EN ISO 20471 Class 1** visibility standards. The calves feature two 7 cm wide segmented reflective bands.
- **HI-VIS fabric** is strategically placed to enhance visibility and maintain cleanliness for longer.

Suitable for:

- Indoor and outdoor work where high visibility is required.
