

Shorts MASHUP recycled and 4 Way Stretch Graphene fabric (Navy/Black)

BoSafety MASHUP-RC Work Shorts - Stylish, Durable, and Unrestrictive!

Fabrics: These shorts are exceptional because they are made using two different fabrics. The base consists of recycled polyester and cotton fabric. The details that require stretch and abrasion resistance are made from “4-Way Stretch Graphene” fabric.

Features:

- Elastic band into the sides of the waistband, extending up to 6 cm.
- Deep inset pockets on both sides (hip area). Pocket openings reinforced with CORDURA® fabric.
- Tool pocket on the right side of the lower leg (reinforced with CORDURA® fabric) and a secured pocket on the left.
- Two deep pockets on the back, with pocket openings reinforced with CORDURA® fabric.

Suitable for Use:

- Indoor and outdoor work where high visibility is not required.
