

Work trousers FUSIONPLUS with hanging tool pockets anthracite/black

BoSafety FUSIONPLUS Work Trousers with Hanging Pockets - Durable and Flexible!

The FUSION trousers with a snug design are created with a focus on quality and comfort. These trousers are made from two different fabrics. This composition not only ensures durability but also provides the flexibility needed for unrestricted movement. **FUSIONPLUS** is an excellent choice for those who value quality and safety in their work environment. The functionality of these trousers allows you to work confidently and comfortably.

Materials:

- **Main fabric:** Made of 65% polyester and 35% cotton. The material not only looks good but also withstands the challenges of daily wear.
- **Secondary fabric:** 90% nylon and 10% spandex, which gives the product flexibility and ensures free movement while working.

Details:

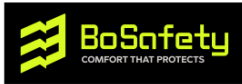

- Extra elastic sewn into the sides of the waistband, allowing the waist to extend up to 6 cm.
- **2 HANGING tool pockets** at the front waistband.
- Deep inset pockets on both sides (hip area).
- Tool pocket on the right leg and a zippered pocket on the left.
- Knee patches made of 100% polyester.
- Special knee pad pockets with a two-level bottom to adjust knee pad placement based on height.
- Adjustable trouser length - by removing a seam, the trousers can be extended by up to 4 cm.
- Two deep back pockets.
- Reflective bands in the lower leg area.
- Trousers comply with **EN ISO 13688** standards.

Suitable for:

- Indoor and outdoor work where high visibility is not required.
