

Trousers High visibility 4-way stretch URBAN (Hi-Vis Yellow/Black)

Unique and modern-looking URBAN work trousers boasting elements of exceptional design, HI-VIS Yellow / Black

The pants are made from HI-VIS and exceptionally strong nylon/spandex “4-Way Stretch” fabric. These pants are designed to be comfortable and non-restrictive, ensuring high visibility.

Features:

- Comfortable work pants due to the stretch fabric. The sides of the waistband have wide elastic band. The pockets are deep and can be closed with zippers. “4-Way Stretch” fabric is used in the thigh, knee, and back areas where unrestricted movement is particularly needed.

Details:

- Functional Pockets: 2 inset pockets in the front, 2 pockets in the front, one of which has a zipper, and a tool pocket on the right side. There are also two spacious zipper pockets in the back.
- Knee Pads: The knee area has specially shaped internal pockets for inserting knee pads.
- Reflective Details: This model uses a lot of HI-VIS fabric, ensuring high visibility.
- External Zippers: The external zipper pulls are equipped with tags for easy unzipping even when wearing gloves.

Fabric: The “**4-Way Stretch**” fabric is not only abrasion-resistant but also extremely flexible.

Seams: The main seams are stitched with a triple-fold seam for added durability.

Suitable for:

- Indoor work, outdoor work, construction sites, roadwork, and active outdoor activities where high visibility is required.

Standard: EN ISO 20471, EN ISO 13688
