

Work bib pants MASHUP RC from recycled fabric navy/black

Work Bib Pants MASHUP with Stretch Panels

The bib pants are made from recycled polyester/cotton fabric, combining the most stretch-demanding areas with elastic, movement-friendly, and high-quality “4-WAY STRETCH GRAPHENE” fabric.

Cordura® fabric details and the “4-WAY STRETCH GRAPHENE” stretch fabric ensure freedom of movement, comfort, and air circulation.

Features:

- The construction and fabric selection are designed not only for carrying all necessary tools but also for unrestricted movement.
- Good air circulation.

Details:

- **Pockets:** Two inset pockets at the waist, one zippered chest pocket, and an internal chest pocket. On the left thigh, there is a deep, zippered side pocket, and on the right, a tool pocket.
- **Closure:** External zippers with pull tabs.
- **Knee pads:** Specially shaped pockets for insertable knee pads, reinforced externally with Cordura® fabric patches at two height levels.
- **Suspenders:** Adjustable suspenders.
- **Length adjustment:** The bottom of the bib pants has a double hem for length adjustment. By unsewing the seam, the pants can be lengthened by up to 4 cm.

Suitable for:

Outdoor work, indoor work, construction sites where high visibility is not required.

Standard:

Complies with EN ISO 13688 protective clothing standard, ensuring high quality, ergonomics, safety, and performance in the workplace.
