

## **PRODUCT DETAILS:**

### **Product code:**

AS-MULTISAFE-TR-C1-0504

### **Fabric:**

75% Cotton/ 24% Polyester/ 1% Antistatic yarn 300g/m<sup>2</sup>

### **Technologies:**

CORDURA®

## **FABRIC PROPERTIES:**

- Comfort and breathability – thanks to its high cotton content, the fabric is soft and highly breathable.
- Resistance and durability – polyester makes the fabric more resistant to abrasion and tearing.
- Antistatic properties – thanks to the antistatic thread, the fabric does not become electrically charged and is safer to use in specific working environments.
- Medium-weight fabric – 300 g/m<sup>2</sup> weight provides a good balance between strength and comfort, suitable for working in a variety of conditions.
- Easy care – the fabric creases less, is easy to wash, and dries quickly.

## **DETAILS:**

- Waistband: Elastic sewn into the sides of the waistband for a comfortable fit. The zipper fastens inward for added protection.
- Pockets: Two patch pockets on the front, two patch pockets on the back with hook-and-loop fasteners. Patch pockets on the sides of the trousers with hook-and-loop fasteners.
- Cuffs and bottom of pants: cuffs and bottom of pants reinforced with CORDURA fabric.
- Additional pocket for gaiters.

- Reflective strips at the bottom of the trousers.

**IDEAL FOR:**

- Operates at higher temperatures, making it suitable for use in hazardous work environments, such as welding or metalworking industries.
- In the electrical and electronics industry.
- Construction and technical works.
